

DINGLE WAY CYCLING

Self-guided cycling in Dingle 2008

There is no other landscape in Western Europe with the density and variety of archaeological monuments as the Dingle Peninsula.

This mountainous finger of land, which juts into the Atlantic Ocean has supported various tribes and populations for almost 6,000 years. Because of the peninsula's remote location, and lack of specialised agriculture, there is a remarkable preservation of over 2,000 monuments. The Dingle Peninsula is located in the Southwest of the County of Kerry. With its capital Tralee it runs in a westerly direction as far as the Blasket Islands.

The Dingle Peninsula is home to many wonders - second highest mountain range in the country, a wealth of archaeological sites, home to some of the finest traditional music, dance and the Irish language. The Dingle Peninsula experience is one you will remember for a long time to come.

You will stay in B&Bs along the route. All rooms are en-suite, meals are excellent, and the scenery could not be better. Your luggage will be transferred each day for you and you will cycle with the help of maps supplied and cycle description.
